Berner Kantonalbank AG implements Profidata's XENTIS for Asset Management

The Berner Kantonalbank AG (BEKB | BCBE) newly deploys Profidata's XENTIS as the central application for their asset management thereby optimising value-added processes in both portfolio and fund management as well as institutional and private asset management.

'The application of modern portfolio and fund management software is fundamental in attaining the performance goals we've set ourselves', explained Dr Thomas Vock, Head of Asset Management at BEKB | BCBE, who is pleased with the efficient implementation of the project. 'Berner Kantonalbank, our IT service provider, HP, and Profidata will work in close cooperation to ensure the success of this multi-faceted project for the realignment of asset management services'.

Christian Widmer, CEO and Chairman of the Profidata Board of Directors, expressed his gratitude for the trust BEKB | BCBE has placed in Profidata: 'Berner Kantonalbank is a renowned Swiss bank and, without doubt, a customer acquisition of great significance for XENTIS.' He believes the long-standing experience of Profidata will prove particularly advantageous during system installation: 'We will support this project to the best of our ability on a results-oriented basis in collaboration with Berner Kantonalbank and HP'.

Berner Kantonalbank AG, Bern

With a balance-sheet total of around CHF 26.7 bn (31.12.2013), more than 500,000 customers and 1,400 employees, BEKB| BCBE is the third-largest cantonal bank in Switzerland. As a traditional universal bank, it offers comprehensive solutions for payments, savings, investment, financing and pension provision. BEKB's activities are focused on two core business areas: business with private and corporate clients, in particular small and medium-sized enterprises, and asset management.
