

PROFIDATA GROUP VIRTUAL DAY '21

Zurich, 24 December 2021

First Virtual Profidata Group Day

Profidata Group hosted its first Virtual Profidata Group Day on November 25, 2021.

In times of limited mobility, to still be able to inform more than 270 participants about our latest and planned developments with this new event format was also a novelty for us, but we found it simply great. Even more so considering our clients' and participants' feedback, we are convinced that this virtual information channel, albeit a second-best solution compared to physical events, has come to be a key element of our future communication with our clients.
